Points will be earned each quarter on how teams finish. Points will compile thru 4 quarters. The team with the most points after the season has ended will be #1 seed. Ties at the end of any quarter, teams will split points evenly. If there are any ties on playoff points at the end of the season, seeding will be determined on total overall team points won in all 4 quarters. Ties will be broken by overall teams points won on the season. If a team would win all 4 quarters, they will receive the top prize of \$600 and the other teams will roll-off for the remaining places.
